

7th International Symposium on Materials from Renewables

Organized by the Coatings and Polymeric Materials (CPM) Department, NDSU

DATES

July 13-14, 2027

VENUE

Memorial Union, NDSU

LOCATION

Fargo, ND, USA

About the Symposium

ISMR brings together leading scientists, engineers, industry innovators, and students to explore the evolving field of sustainable materials — advancing the design, synthesis, characterization, processing, and application of materials derived from renewable resources.

Research Themes

Biobased polymers • Green chemistry • Nanocellulose • Sustainable coatings • Circular economy • Bioplastics • Renewable feedstocks • Biocomposites

Key Dates

- Conference: July 13-14, 2027
- Abstract deadline: to be announced
- Early-bird registration: to be announced

Registration

Regular and Student registration available through the NDSU portal.
